COMMITTEE RECRUITMENTS

Hello,

Committee members are valuable contributors to the regulation of the paramedic profession and an important piece to the regulatory structure.

The College is recruiting three members for the Competence Committee and three members for the Paramedic Education Program Review Committee to sit for a three-year term. This is an opportunity for regulated members to support and grow the profession.

The Competence Committee is responsible for conducting Continuing Competence audit reviews and providing advice and direction on continuing competence matters.

The Paramedic Education Program Review Committee is responsible for reviewing the applications for new program submissions and for comprehensive program reviews, conducting program site visits and interviews and formulating program approval recommendations for the Registrar and Council.

Members on the College's Committee are compensated for their time.

Time commitments include:

- Six to eight meetings per year
- Most meetings are held virtually with one to two meetings per year held at the College's office

More information about the Competence Committee can be found in the Terms of Reference.
